

CEWELD SPA FeAl5

TYPE Cored wire for the thermal spray process

APPLICATIONS Rough surfaces aginst sliding and or applications that require a smooth finish after machining.

PROPERTIES Aluminium alloyed tubular wire for electric arc spray on a Fe-Al basis with high bond strength.

CLASSIFICATION

SUITABLE FOR Coating walking surfaces against sliding, stairs, traction wheels and rollers, buffer layers etc.

APPROVALS No Approvals Found

WELDING POSITIONS

REDRYING TEMPERATURE Not required

GAS ACCORDING EN 14175
