

CEWELD Alu-Flux

TYPE	Flux for aluminium brazing	
APPLICATIONS	Alu-Fux is for brazing from Aluminium and Aluminium Alloys with a working range from 350 to 550 °C	
PROPERTIES	Usually combined with AlSi12 or AlSi5 filler metal.	
CLASSIFICATION	EN ISO	18496: FL20
SUITABLE FOR	Brazing for Aluminium and Aluminium Alloys with a working range from 350 to 550 °C. Usually combined with AlSi12 or AlSi5 filler metal.	
APPROVALS	No Approvals Found	
WELDING POSITIONS		
REDRYING TEMPERATURE	Not required	
GAS ACCORDING EN 14175
