

CEWELD Universal-Flux

TYPE	Universal flux for brazing with brass and new Silver alloy		
APPLICATIONS	Copper, Copper Alloys, Brass, Steel, Galvanized steel		
PROPERTIES	Working temperature from 550-800 °C		
CLASSIFICATION	AWS	A 5.31: FB3-F	
	EN ISO	18496: FH10	
SUITABLE FOR	Universal flux for brazing with brass and new silver alloy on copper, copper alloys, brass, steel, galvanized steel, working temperature from 550-800 °C.		
APPROVALS	No Approvals Found		
WELDING POSITIONS			
REDRYING TEMPERATURE	Not required		
GAS ACCORDING EN 14175
